MAKMAX CARPARK SOLUTIONS offer a range of products from private carparks including single bay to mass coverage for large retail centres and vehicle storage locations.

Partnering with MakMax ensures:

- Complete in-house ‘turn-key” solution
- A total project management process
- Our work can be planned around your operating hours
- Our structures are designed to protect from sun, rain, hail, snow and wind
- We combine the best quality assurance practices, we are ISO accredited ISO 9001, ISO 14001 and AS/NZS 4801
- All car park options are completely designed, fabricated and constructed by our in-house engineering, architectural and drafting team
- The strong financial strength and long standing global reputation of our group ensures you are in good hands
MakMax Single Bay Carpark Solution accommodates a single row of parked cars and is available in a wide range of fabric colours and steel finishes.
ARCHITECTURAL CARPARK SOLUTIONS

MakMax Double Bay Carpark Solution accommodates rows of parked cars two deep and is available in a wide range of colours and steel finishes.
ARCHITECTURAL CARPARK SOLUTIONS

Double Bay Carpark Shade Structures with walkways provide rows of parked cars two deep with a covered walkway included.
The Hypar Range of MakMax Architectural Carparks provide large areas of cover that include walkway and driveway areas. These areas are often overlooked by other products on the market. Commonly the Hypar product is manufactured using a HDPE (high density polyethylene) mesh offering solar, UV, and hail protection. MakMax designs site specific car parks for those instances where our pre-designed models do not suit the intended purpose.
ARCHITECTURAL CARPARK SOLUTIONS

The Mass Coverage Range offers complete cover for full carparks and driveways. Perfect for busy shopping centres or high traffic areas such as airports and vehicle storage locations. All our mass coverage solutions are designed by our in-house professionals to suit your specific requirements.

ACCREDITATION

Our ISO 9001:2000 compliant Quality Management System (QMS) ensures absolute quality, consistency and customer satisfaction. Our business systems, (sales, marketing, estimating, design & drafting, fabrication, manufacturing, storage, logistics and project management activities) are accredited by the Bureau Veritas Quality International Certification Services (BVQi).

CERTIFICATION

We offer clients the professional services of an in-house team of registered, practicing engineers.
It’s another quality assurance that ensures we deliver full certification and design that meet all international standards.
